Profile Summary

Results-driven Full Stack Developer with 6+ years of hands-on experience designing, developing, and optimizing enterprise-scale web applications using Java, Spring Boot, React JS, and modern REST architectures. Known for building robust backend systems, intuitive frontends, and high-performance APIs. Skilled in MySQL, workflow automation, and scalable solution design. Recognized for delivering business-critical features in fast-paced Agile teams and consistently enhancing product quality, user experience, and system reliability.

Key Skills

Development & Architecture : Full Stack Web Development , RESTful API Design & Integration , Enterprise Application Maintenance , Microservices Architecture.

Technical Tools : Java , Spring Boot , React JS , MySQL , JavaScript/jQuery , Bootstrap , Postman/Swagger..

Core Competencies : Agile SDLC , Performance Optimization , Data Visualization (Kendo/amCharts) , Code Refactoring , Responsive Web Design.

Soft Skills: Analytical Thinking , Problem-Solving , Agile Collaboration , Client-Focused Delivery , Technical Documentation , Proactive Learning.

Experience

CAPGEMINI

January 2022 – Present

Senior Consultant (Developer)

Kolkata, India

- Developed and maintained enterprise-grade applications using Java and Spring Boot, ensuring high performance and scalability.
- Designed and implemented RESTful APIs to enable seamless and secure communication between frontend and backend systems.
- Contributed to the client project “Liberty Spain”, handling backend logic, integrating new features, and enhancing system functionality.
- Debugged, optimized, and refactored existing modules, improving application performance, stability, and maintainability.
- Performed comprehensive API testing, validation, and documentation using Swagger and Postman.
- Actively collaborated in Agile sprints using Jira for efficient sprint planning, task management, and timely delivery of features.

KEROSS RESEARCH AND DEVELOPMENT PVT. LTD.

Nov 2019 – Dec 2021

Software Engineer Level 2

Kolkata, India

- Developed a comprehensive global resource allocation and project tracking system using React JS.
- Integrated backend services built with Java, Spring Boot, and MySQL, enabling seamless data-driven workflows.
- Designed interactive analytics dashboards using Kendo UI and amCharts to support construction insights and reporting.
- Built reusable and modular UI components, improving UI consistency and reducing development time.
- Collaborated closely with backend teams to integrate APIs and implemented robust validation for secure and error-free frontend interactions.

KEROSS RESEARCH AND DEVELOPMENT PVT. LTD.

May 2019 – Oct 2019

Professional Intern.

Kolkata, India

- Developed responsive and user-friendly HTML pages styled with CSS and Bootstrap 4, ensuring consistent UI and improved accessibility.
- Implemented dynamic frontend behaviors through jQuery and JavaScript for enhanced user interaction and smoother workflows.
- Built an Attendance System for tracking employee attendance and device services, improving organizational monitoring and operational efficiency.
